## SUMMARY

Experienced Front End Developer with 2 years of experience in web development, programming, and software engineering. Highly skilled in JavaScript, HTML, CSS, Angular, Git, RxJs, and knowledge of NgRx. Demonstrated ability to work independently and collaboratively in a fast-paced environment. Seeking a position at Sherzal to utilize my technical knowledge and experience to create dynamic user experiences.

## EXPERIENCE

### Front End Developer Sherzal

July 2021 - Present, Cairo, Egypt

Working on Elastic Travel project. Developing, and maintaining the B2B and B2C modules of the application developed for large-scale tour operation companies.

- Constructed comprehensive customer-facing Web App Modules from the ground up
- Improved performance 10X by implementing angular OnPush strategy and redesigning the structure of the components, communication between components, and using state management.
- Implemented a design system that improved the efficiency, speed, and scalability of front-end development through the platform
- RESTAPI Building and integration with back-end APIs
- Handling Front End GIT branches. On AWS CodeCommit.

### .Net Full Stack Developer Training Information Technology Institute (ITI)

April 2021 - July 2021, Apr 2021 - Jul 2021 · 4 mos

- I've completed 5 HTML & CSS Tasks (2 Templates)
- Over 20 JavaScript tasks related to the main topics of JavaScript Programming
- Used MS SQL Server to build DBs and connected it on VS Code in many situations (WF, Asp .Net 4.8, ASP.Net 5 and Core)
- Used ASP identity server to make a website with Authentication and authorization

## PROJECTS

### Egyptian Tourism Platform

Misr University for Science and Technology · September 2018 - June 2019

- Graduation Project Team management
- Handling GIT branches for the project
- Built FE UI from scratch, connecting with Back-End
- Google Maps Integration implemented, increasing customer satisfaction and reducing operation time by 16% and customer queries by 14%.
